

13 Awesominds minutes Aug 3rd

1pm via Skype

In attendance: Walker, Adam, James, Marty

1.0 Approval of agenda

. approved

. Marty mentioned he'd be creating a spreadsheet of all of the remaining tasks/glitches/revisions and sending it to the team. He asked that they review, discuss and each select a task.

2.0 Review of previous minutes

. approved

3.0 Emails since last meeting

3.1 PM/Marty

7/29 12:26

When I play game show (as a student), I finish the round, I click on 'next round' it brings up a blank screen with the word begin on it

And nothing works!. It freezes

Possibly works. Marty to follow up

7/29 1:26

Could you not create a Big invisible button - that covers the whole screen?

- Team not done before. There will still always be other buttons on the screen. This is a Low priority

Tried to upload a set of questions – nothing!

It allows me to add a question but it doesn't upload a file of questions.

James still working on it – doesn't work. Doesn't work in AM 2. Tasks – hi priority

Task/Game management

1. I set the values at for the rounds/levels. Then I decide to add a round. I go up and click up arrow to add round. Then all of my setting I just did get erased.

I don't want this.

Task to be completed

2. When I try to 'Invite Students' it gives me a link – great
It takes me to the site – great. I can log in – great

Then it shows me “Invalid registration link, please try again!”

James addressed this– works now.

Just drills

1. Progress screen has a time delay. I want them to click on something to advance
Has been fixed

Play

1. When I try to play a game from instructor mode it doesn't work

Fixed. Shows only one course. One you are registered for.

Also now signs up the instructor to the course for the course they created.

Aesthetics

1. Entire app. Remove shadow from all text – hard to read.

Done

2. Just drills: Progress screen – feedback line is too thin and too long.

Done

3.2 Adam

7/29 12:12

Alignment of buttons in slide cards

Set up - done

3.3 James

7/30

Set up new URL so it can be accessed from anywhere

1) URL: <http://camosun.westus2.cloudapp.azure.com/index.php>

2) ID: Student(C0900001 - green hair with student test), Instructor(C0999999 - pineapples)

You can check the completed tasks below

(1) Invite Student:(2) Invite Instructor: (3) text changed: (5) sound added;

Task: Too much sounds? – stop background when ‘confirm’ hit

(6) Mobile screen: works but some Overlap

Correcting top area on mobile

after merging the other members' sources

I'll also work on uploading question files which doesn't work after changing the database structure.

Doesn't work in AM 2 anymore – high priority

4.0 Progress on Assigned deliverables

Walker –Stop button still working on it.

In progress

Game show host dialogue.

Finished

Task. What about in a row bonus?

Host should say this at the beginning “If you get three in a row, you earn a bonus”.

Lives – Where should we tell them how many they have? Right now at beginning and between rounds. Good enough.

One crack time bonus – extra points.

Done

Didn't beat opponents – fix.

Both opponents? – yes must beat both

Alter chapter dates - . **Done**

Hide tasks – disappear. **Done**

Rate questions – next button. To be discussed in detail below

James – Invite instructor – make it working. **done**

Invite students – check that. **done**

Log in screen - missing 'welcome to awesominds' – place at top

and About screen. – change second student team back to AM II

Explanation of tasks shorten line length. – **done**

Adam – Slide card buttons lined up. - **done**

Readable dates for start end... **complete**

Point placement and title placement. - **swaped**

Will explore courses not popping up when I (the instructor) hits 'Play' tab at top – **works now**

Progress indicator – **working**, showing on screen, lines come from off screen, but all of them at once.

Lines thicker – still not one at a time. Next button -

Started working on operational manual; **70 pages. All files and functions**

Team; as you finish, go to additional items, check with team mates

Team will push up new code

Marty requested that new code be pushed Every 48 hrs. Snet email, He'll check and provide more feedback.

Marty

new host – completed and sent

Sent email to Camosun IT. Ticket created. Still haven't heard back

Reviewed latest version – found additional items to work on

5.0 Selecting next tasks/deliverables

5.1 Timeline

PM/Marty expressed his concern about the growing tight nature of the timeline

Aug 5 team takes on no more tasks.

Aug 5-10 testing everything, finding bugs.

Aug 10 – 15 fix everything we found

Aug 15 – done, complete, finished

5.2 Next team tasks

Attendees Reviewed and discussed document; AM 2020 Glitches July 27th

And new glitches Aug 3rd

1 Combine instructor options (analytics)

2 Rate questions still not working – looks like the ‘just drills task’. Marty went over the AM glitches July 27 document to explain.

3 Mystery multipliers available?

Reset up database in order to view it – low priority

4 Will this be able to just plop into College's MS Azure at it'll work flawlessly?

Theoretically should be easy – copy and paste. Login details for database.

Easy to deploy on MS Azure

Deploy on ASM – camosun's server just to be sure. (aug 10th?)

5 Add text for log in screen (Story line)

Your instructor is part of an international organization addressing global challenges.

To help us meet these challenges we are looking for people with the greatest potential.

WE need people whose minds have numerous intellectual qualities.

We need people whose minds are not just smart...

We need people who have Awesome minds!

6 Manage tasks/games - should be same heading on actual screen

7 Q. If I switch to another chapter on this screen will all the values change?

Should save when you submit. Does a call to the database each time you switch to a new chapter/section

8 About screen. Keep last teams name as AM 2

9 'preamble' still appears on select task. “There is no preamble for this chapter”

Task – if they do not have a preamble, nothing should show up

10 Name for new characters – Marty task. Review. Seems ok for now

11 ‘Next’ button location – Task. Currently at odd spot at bottom. overlaps

12 Time bonus - points don't appear/fly in.

Task – make them fly in

Incorrect points - fixed

Task 5 – not discussed

PM/Marty will review all discussed items/tasks from this meeting as well as AM 2020 glitches July 27 document, create a list in a spreadsheet and send to team.

Team will discuss on their own which tasks they will tackle and inform PM/Marty

5.3 Project manager next tasks

PM task – change course name as well as code? – in progress

Another pair of eyes will be reviewing the app

Review – Buttons: ‘Start Again’ (starts a new game) ‘Tasks’ (Returns you to task screen) ‘Quit’ (Ends Awesominds). Seem to be working

6.0 additional items

6.1 PowerPoint presentation

6.2. more frequent uploads – 48 hrs

7.0 Next meeting

Aug 10th 1pm Skype –

8.0 Adjournment

2:08 pm
