

Awesominds II

Project Status Report #5

Sprint #2

Period ending:	June 12th, 2020
----------------	-----------------

Team Name	Number of Units completed
Team Awesominds	72 (total units)

Client:	
---------	--

At the end of this week:

Number of units remaining in backlog	102
Number of units in progress	21
Number of units in review	15
Number of units completed this week	46
Number of new units identified (additional scope)	1

Describe any tasks that could not be completed and how these is being addressed:

Task	How is this being addressed?
#22 Exporting scores and sending email	We have emailed our sponsor who emailed ITS about getting SMTP access to send emails to Camosun email accounts

Descripted any tasks that could not be completed and the impact:

Task	Impact
#22 Exporting scores and sending email	We won't be able to continue with this task until we get the needed info. It has been noted and will come back to the task once we get the correct info to proceed. However it is basically done since we have it working though Gmail

Provide a schedule of this week's meetings and a summary. Include agenda, minutes.

Awesominds Agenda June 8th

1pm via Skype

In attendance: Walker, Adam, James, Marty

1.0 Approval of agenda

Approved, no changes

2.0 Review of previous minutes

Approved, no changes

3.0 Actions since last meeting

3.1 Project manager (Marty)

sent email to Steve at ITS. Marty has not heard back. Worried there may have been too many questions.

sent requirements.

sent updates deliverables file

3.2 Team

Ongoing tasks, below.

Development environment has been set up. No longer need MS Azure

4.0 Progress on Assigned deliverables

Adam – show courses pop-up – ALL courses, editable from pop-up?

Not editable at this point – but does give all

Right now, can't do instructor specific (Getting to show only your courses) – db integration required

Walker – completing task selection,

Task selection – operational, current point values submit button at bottom

updating new database structure – continuing

Completed part of the hide/unhide task

James - exporting scores: sending csv/results file to instructors email

Went over email James sent to Marty

A number of the questions had been resolved

Still waiting for just the first one SMTP information (Action Marty)

Action Marty: double check first line of CSV format. Is it necessary?

Action Marty: Line up score from csv file to instructor grade book – think about

Currently is using Gmail server – will be changed to Camosun

5.0 Uploading/version process

Communicating with project manager when a new version is uploaded to server, Send PM (Marty) an email.

Marty did not have access to all functionality for his presentation

Upload – access database. Team needs Higher level of access.

6.0 Selecting next tasks/deliverables (high priority items)

6.1 Timeline

This month for high priority items, Next month – medium.

6.2

Database

Data modeling modifications - Updating the database structure

Purging unnecessary data - Emptying the database of old courses and classes. (to be done)

Manage Tasks and games

Task selection - ability to toggle on or off the four tasks of the app

13. Operationalize all of these displayed functions

Manage Courses

Edit current course - menu of all instructors courses (in progress)

'Set dates' pop up - chapters/sections for the current course; their start date, their grade submitted date and their end date

19. 'Hide course' doesn't change the button in instructor's view. Once the 'Hide course' function is activated the blue button on the course management screen should change to 'Un hide course'
21. 'Available from:' and 'To:' should be changed and 1 line added. The three titles should be: "Start date", "score submission date" and "end date"

Student progress

Exporting scores – a csv file is created with all of the students in the class with Their c-numbers and scores for that section. An email message is created and sent to the instructor (in progress)

Tasks/game

'Done' button - They have to hit the 'I'm done' button on the screen to enter the answer

Create Account page

4. Hitting the down button under the avatar makes it disappear. Stop this

View student progress

10. Change the nature of the export file so that it matches the structure sent to you earlier.
11. Have to figure out a way to export the file so that the listing of c-numbers matches the order in the instructor's grade book

Select a Task:

Just drills

38. After hitting stop, contents of the task appear on the task end screen. It keeps playing. Remove these.
39. The 'Select a different game' button takes you to chapters it should be 'Select a different chapter/section'
40. We need to add a new button 'Select a different task'. This will take us to the select a task screen.

Rate questions

47. Content continues to appear as in 38 above
48. Same as items 39 and 40 above

Slide cards

52. Same as 38, 39 and 40 above

Game show

53. Current intro screen changes completely
- Add text above. Title "Game show" Explanation under "You will be competing against others in a game show. There are several rounds. Each round has a different challenge – way of answering. Explanations appear at the beginning describing how you will play. Your goal is to complete each round and win the game.

These are your opponents" Show pictures of opponents

"Touch/click 'Play' to begin"

Add a 'Play' button

Next tasks

Adam – next, purging unnecessary database

Purging data: Student – just the students accounts from the current course, NOT from Awesominds. Scores – keep student accounts in the course, just purge all of the points they've earned. Courses – purge the course, all of it's chapters and all of it's questions.

James – 10, 11, CSV export file, and ensuring the scores/points earned go to the correct student

Walker – Avatar bug. Hide course.

Team comments

May be an issue with moving to game tasks, if there is an inability to access the dbase

Marty Comments

Keep going/working. Don't stop simply because you've completed that weeks tasks

If you do finish and decide to tackle another task – communicate with the team so we do not have duplication of effort.

6.3 Project manager next tasks

Think about best way to ensure C numbers line up.

Action Marty: double check first line of CSV format. Is it necessary?

Screen shots of grade book plus explanations

Email Steve re: SMTP information

Forward dbase access to Steve. Need deeper access, can only view it.

7.0 additional items

PM asked: How are the time estimates working out?

Some overage because task required getting to know the dbase structure

8.0 Next meeting

Monday June 15 1pm

PM thanked team for their hard work

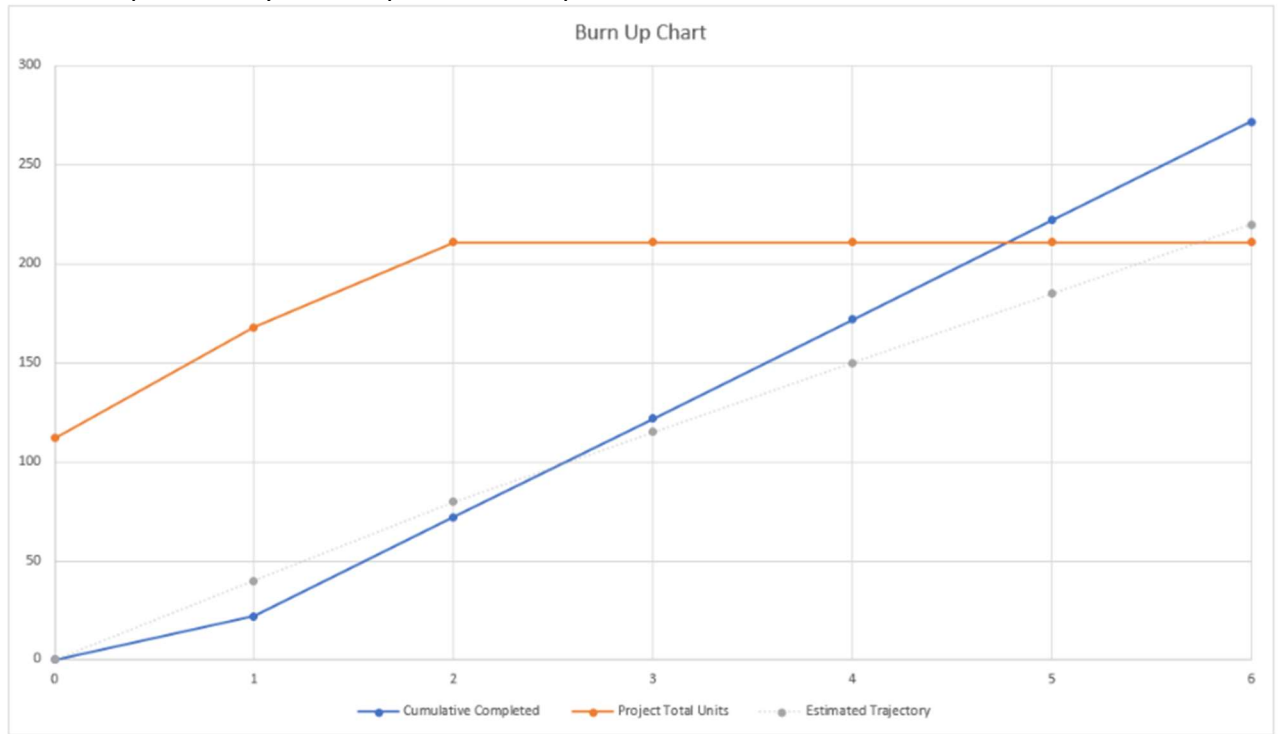

9.0 Adjournment

1:59pm

1. Project end date as estimated at the end of last sprint (based on burn-up chart)
Near the end of sprint 4
2. Project end date as estimated at the end of this sprint (based on burn-up chart)
Near the start of sprint 5
3. Estimated unit completion target for this sprint
40
4. Achieved unit completion target for this sprint.
50
5. Provide context for any loss or gain in productivity.
We became more productive because in the first sprint where we took half the sprint to set up our environment and begin working. Also we familiarized ourselves with the code during the first sprint as well so it made it easier for us to proceed.
6. Estimated unit completion target for next sprint. If different, please explain justification.
35 We have tasks that include that makes the game look visually better but because of our database integration we broke the game and will have to make changes as needed.
7. Attach a list of tasks addressed in the current sprint and their current state, assigned resource and estimate.

Tasks	Current State	Assigned	Estimate (units of effort)
Data purging	Complete	Adam	3
Show all popup	Complete	Adam	1
Activate 3 buttons (deleteing students, questions, scores)	Complete	Adam	8
E-Portfolio design	Complete	Adam	2
Update E-portfolio	Current	Adam	8
Allow instructors to manipulate data	Complete	Walker	13
Points per task	In Review	Walker	3
Number of lives	In Review	Walker	3
Number of game rounds	In Review	Walker	5
Game Point Values	In Review	Walker	2
Game Numbers of questions per round	In review	Walker	2
Append button for comments	In Review	Walker	2
Exporting scores	Complete	James	21

8. Attach a picture of your completed burn up chart.

Sprint	Project Total Units	Estimated Units This Sprint	Completed This Sprint	Cumulative Completed	Estimated Trajectory
0	112	0	0	0	0
1	168	40	22	22	40
2	211	40	50	72	80
3	211	35		122	115
4	211			172	150
5	211			222	185
6	211			272	220
