### **4.0 Progress on Assigned deliverables**

Walker – round begin and screens, intro and exit screen, game over screens, analytics dummy page

Done. Missing words – will implement wording. Stats in top right. Intro and exit screens – done. Stop button still working on it.

Analytics; two pages. Students and questions.

Make mystery multipliers game mode – wow.

James – adding avatars – done (now 31), selecting avatars (display 3, center one is selection – yellow rectangle) - done,

sound effects – questions and options sliding in and out. Click button. Question appear, round end. Applause sounds.

Timer – sound effect.

Password for log in – image and name – restored.

Annabelle has been replaced.

Adam – work on section preamble popup – preamble too long – format to fit screen

On tasks screen

- change name of course function - done

- colour and pallet – white with blue tint, change text – done

Progress indicator – working, showing on screen, lines come from off screen, but all of them.

Started working on operational manual

Team; as you finish, go to additional items, check with team mates

Team will push up new code in a day or so

Marty

new host – review to see if it looks right

Reviewed screen shots from Walker and provided feedback via email

Sent email to Camosun IT. Ticket created. I haven't heard back

## **5.0 Selecting next tasks/deliverables**

### **5.1 Timeline**

PM/Marty expressed his concern about the growing tight nature of the timeline

Aug 5 team takes on no more tasks.

Aug 5-10 testing everything, finding bugs.

Aug 10 – 15 fix everything we found

Aug 15 – done, complete, finished

### **5.2 Next team tasks**

Attendees Reviewed documents; Project(Sprint) tasks(Backlogs) and AM 2020 Glitches July 27th

James; Invite instructor – make it working. Invite students – check that. Log in screen and About screen. Explanation of tasks shorten line length.

Walker – Game show host dialogue. One crack time bonus – extra points. Didn't beat opponents – fix. Alter chapter dates - . Hide tasks – disappear. Rate questions – next button.

Adam – Slide card buttons lined up. Readable dates for start end... Point placement and title placement. Operational manual. Will explore courses not popping up when I (the instructor) hits 'Play' tab at top

### **5.3 Project manager next tasks**

PM task – change name as well as code?

Review newest version push up and look for more glitches.

Another pair of eyes will be reviewing the app

Review – Buttons: 'Start Again' (starts a new game) 'Tasks' (Returns you to task screen) 'Quit' (Ends Awesominds)

### **6.0 additional items**
